

# A Proven Way to BOOST Your Student's Knowledge, Confidence & Grades!

## Tutorial & Enrichment Programs You Can Trust

The **WHIZard Academy for Mathematics & English®** specializes in customized tutorial and enrichment programs in math & English (reading comprehension, grammar, writing). **Math & English are our obsessions.** With decades of experience, we're the most time-tested tutoring company in North America with a primary focus on mathematics & English.

With our history of proven results, you can be confident that when your student uses our powerful & unique learning system, **grades & confidence will soar.**

## Our Learning System Is The Finest Available

Our system has been perfected over 25 years by an international team of education experts. It has helped tens of thousands of students on 3 continents leave their math & English difficulties behind them.

And it will do the same for your child. Results vary, but your student's grades will most likely increase by 1 to 2 grade levels in as little as 4 to 6 months, based on the average improvement seen by our students.

When you decide to have your child join the thousands of students who each week use our learning centers across the US & Canada, your child will receive the tools, learning skills & supportive assistance to dramatically transform his or her study skills, understanding, grades & confidence.

## We Help All Students

It doesn't matter if your student is in Kindergarten or an adult, a struggling student, on par with peers, or a gifted advanced learner, we have a **focused, 'a la carte' program** to meet his or her unique needs with **'family-friendly' scheduling.**

## Tutoring that Works! <sup>sm</sup>

• Your student will experience immediate, measurable progress by working from his or her own unique, **focused, custom-designed program** in math, English or both.

• Your student's custom program, based on the results of a **standardized Skill Level Evaluation**, will uniquely target any "skill gaps" while reinforcing his or her strengths. This produces **rapid progress** and why we can offer you both a unique **No RISK Trial** and our **Achievement Guarantee.**

• Your student will receive **one-on-one, caring attention** from our highly skilled, specialized & certified tutors. Your student will never have to wait to receive attention, usually receiving it "instantly," due to our **low student-to-tutor ratio.**

• Your student will be able to focus & make great progress in a minimal amount of time, because he or she will work in a **private Study Station in a supportive, quiet library** setting, free of peer pressure & distractions.

• Your student will receive a progress report daily, tracking growth & development every step of the way. Our **reward & recognition programs** motivate and strengthen self-esteem.

## Call Now For Your FREE Diagnostic Test

If you're ready to eliminate your student's difficulties with math or English, maximize his or her potential, and watch grades & confidence soar, call now for a **Free Diagnostic Test.** Others charge \$50, \$150, or even \$200, but we're offering it to you **FREE – free of cost, obligation & risk.**

## Mathematics

Individualize math tutoring or enrichment programs from level pre-K through AP Calculus & AP Statistics, supported by an extensive, multi-sensory curriculum. We are **The Math Tutoring Specialists!** <sup>sm</sup>

## Writing, Reading & English
